- Typescript.
- Bootstrap.
- SASS.

- **Networks Fundamentals (R&S) :**
  CCNA 200-301 (Routing and Switching)

Education:

University: Faculty of Engineering - Mansoura University.

Department: Electronics and Communications Department.

Graduation Project:

Cisco campus network (routing and switching)   (Project team leader)

- This project presents a simulation of a virtual communication network that interconnects variety of university buildings including administrative buildings.
- This network is designed in a hierarchical shape. A hierarchical design separates a network into distinct layers (core-distribution-access).
- Each layer has a series of functions that define its role in the network It provide us better traffic control, security and equipment cost saving.
- Cisco routers and Switches are used for this project.

Graduation Project Grade: Excellent   (2017-2022)

Work Experience:

- ▪ Angular Movies Project With: -
